The screenshot displays a dual-interface setup for managing user profiles. On the left, a Windows File Explorer window is open, showing a folder structure under 'This PC > Desktop > WIS-10 > app > photos'. Five image thumbnails are visible, numbered 0 through 4. The thumbnail for image 2 is selected. A file selection dialog is overlaid on the window, prompting the user to 'Open' a file named '2'. On the right, a web-based profile editing interface is shown. It features a circular profile picture of a woman with long hair, labeled 'Change Profile Image'. Below the image are several input fields: an email field containing 'wongwf-wm22@student.tarc.edu.my', a phone number field containing '0126678902', and a permissions field containing 'Manager'. At the bottom of the profile form is a large brown 'Update Profile' button. The top right corner of the interface includes 'Register Admin' and 'Logout' buttons. A watermark 'Activate Windows Go to Settings to activate Windows.' is visible at the bottom right.
